Ref. No.: PK1/CLR/5

San Jose, August 10, 2026

To: EVNGENCO3 Bid Evaluation Committee

Subject: Response to Request for Clarification – Evidence of Manufacturing Capacity (Form 04B – Capacity of Manufacturer)

Dear Sirs/Madams,

We refer to your request that the Bidder provide documents evidencing the data declared in Form 04B – Capacity of Manufacturer, in order to demonstrate that its manufacturing capacity satisfies the requirements of the Bidding Documents. UNEW, Inc. is pleased to submit the enclosed evidence package. Each item declared in Form 04B is supported by one or more numbered exhibits, as summarized in the Evidence Schedule attached to this letter. We note that EVNGENCO3's representatives have audited UNEW's facilities on three occasions, and the enclosed documents confirm the capacity observed during those audits.

For clarity of the record: UNEW's facility is a comprehensive operation whose principal business includes the manufacture of parts for Pratt & Whitney and aircraft repair, in addition to industrial gas turbine parts and services. The declared total investment value in Form 04B refers to the entire facility. The financial statements previously submitted to EVNGENCO3 relate to the gas turbine parts and services business only, which is the scope relevant to this bidding package.

In accordance with the note to Form 04B, the package includes commercial invoices, stock/inventory records and equivalent documents proving our production capacity, together with our quality accreditations, which may be independently verified with the issuing bodies (ISO 9001 certification body; ANAB for ISO/IEC 17025; and the Performance Review Institute (PRI) eAuditNet directory for Nadcap accreditation).

A re-issued Form 04B, signed by the Company's authorized representative and presenting each plant separately, is enclosed as Exhibit 1 for consistency with the evidence provided. We trust this package fully demonstrates that UNEW, Inc.'s manufacturing capacity satisfies the requirements of the Bidding Documents. We remain at the Committee's disposal for any further verification, including a facility visit or video inspection of either plant.

Respectfully submitted,

A handwritten signature in black ink, which appears to read 'Long M. Le', is positioned to the left of a circular corporate seal. The seal features the text 'UNEW, INC.' around the top edge, 'CORPORATE SEAL' in the center, and '1999' at the bottom. The seal has a textured, embossed appearance.

Long M. Le

President / Authorized Representative – UNEW, Inc.

Date: August 10, 2026

EVIDENCE SCHEDULE – FORM 04B (CAPACITY OF MANUFACTURER)

Each declared item in Form 04B is evidenced by the exhibits listed below. Exhibits marked [attach] are to be compiled by UNEW, Inc. from company records before submission.

Declared data (Form 04B)	Declared value	Evidencing documents (Exhibit No.)
Form 04B itself	–	Ex. 1: Re-issued Form 04B, one table per plant, signed by President with company seal [attach]
Number of plants / addresses	2 plants: Stuart, FL 34997 and San Jose, CA 95131	Ex. 2: Property deeds or lease agreements for both facilities; state business registrations / certificates of good standing (FL and CA); facility photos and plant layout drawings [attach]
License / quality accreditations	ISO 9001; ISO/IEC 17025 (ANAB); Nadcap (PRI)	Ex. 3: Copies of current certificates showing certificate number, scope and validity dates. Scope must cover gas turbine / aerospace part manufacture and repair. Note: evaluators can verify these online (certification body registry, ANAB directory, PRI eAuditNet) – confirm all are current before submission [attach]
Total investment value	USD 3.5 billion (1999, entire facility incl. aviation operations)	Ex. 4: Management statement clarifying that the declared investment covers the entire UNEW facility (aviation parts manufacture for Pratt & Whitney, aircraft repair, and gas turbine operations), while the submitted financial statements cover the gas turbine parts and services segment only; supported by fixed asset register summary and/or property insurance schedule where available [attach]
Design capacity	3,000 sets of capital parts annually (aviation and heavy-industry gas turbine)	Ex. 5: Engineering capacity statement signed by the plant/operations manager showing the capacity calculation (machine-hours, shifts, lines); equipment/machinery register of principal production and test equipment [attach]
Actual capacity	1,800 sets	Ex. 6: Production output reports from ERP/MRP for FY2023–FY2025 (sets produced per year), certified by management; Ex. 7: sample commercial invoices, customer purchase orders and delivery records for capital parts supplied; Ex. 8: finished-goods inventory / stock report per the form's note [attach]
Manufacturer criteria	Aviation and gas turbine replacement parts; refurbish/repair capital parts	Ex. 9: Product catalogue / scope-of-work brochure; Nadcap and ISO 17025 scopes (cross-reference Ex. 3); representative customer contracts or reference letters for parts supply and refurbishment [attach]
Quantity of employees	600	Ex. 10: Payroll head-count summary certified by management; IRS Form 941 quarterly filing summary (shows number of employees); workers' compensation insurance declaration [attach]
Financial capacity (supporting)	–	Ex. 11: Financial Statements Package FY2023–2025 (already submitted in response to the financial clarification), showing salaries and wages of \$70–75M per year consistent with ~600 employees [attach]

Note on scope: the declared total investment value refers to the entire UNEW facility, whose principal business includes manufacture of parts for Pratt & Whitney and aircraft repair. The financial statements submitted to EVNGENCO3 cover the gas turbine parts and services business only (total assets \$295 million). The re-issued Form 04B (Ex. 1) should state this scope in the "Other information" row so the tender record is internally consistent.
